Intro
G C x2
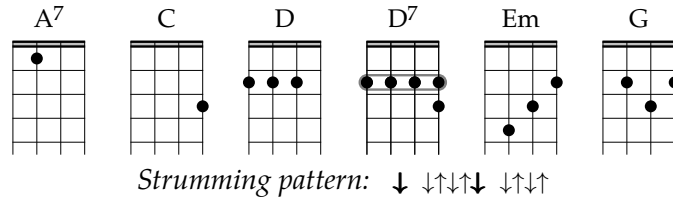

Verse 1

```
     G                      C
It was an upset in two minutes flat
          G                  C
We were back on the freeway foot to the mat
        Em                A⁷
I can't understand it we had it down pat
          C                      D
It's very upsetting could we leave it at that
          G              C
We all had positions we each had a role
          G                C
We'd over-rehearsed it we had full control
                Em                      A⁷
They can't teach you acting it's there in your soul
              C                      D
It's the same with a bank job and each thing we stole
```

Chorus

```
                    Em/    D/  G/
So I don't need        at-   ti- tude
                    Em/    D/ G/
Cause you knew just  what to  do
              C                    Em
We all did our best now,  we all need to rest now
        A⁷                       D/
Leave me alone,          and wait by the phone
```

Verse 2

```
     G                  C
I was the driver you ran the show
        G                  C
You had the last word the go or no go
          Em                A⁷
I knew every laneway in Ontario
              C                      D
But it's not what you're sure of it's what you don't know
          G                  C
It should have been filled with the usual ones
          G              C
Throwing their cash into mutual funds
              Em                      A⁷
We all had our ski masks and sawed-off shotguns
          C                      D⁷/
But how do you plan for a bank full of nuns?
          G                  C
Well I guess we panicked - we all have taboos
```

```
              G                    C
And they were like zebras they had us confused
                 Em                      A⁷
We should be in condos with oceanfront views
                 C                       D
Instead we're most-wanted on the six o'clock news
```

⌐*Verse 3*¬

```
          G                 C
Inside the police car you tried to explain
          G                      C
your crisis of conscience the voice in your brain
                 Em                      A⁷
And now that the whole thing has gone down the drain
              C                       D
I think we all know who should shoulder the blame
              G                  C
Cause you made a choice there almost sublime
              G                  C
I'm all for compassion just not on my dime
                 Em                      A⁷
You looked like an amateur and that's the real crime
              C                  D
So I'll take a walk now and you do the time
```

Final Chorus
```
                      Em/   D/  G/
And I don't need      at-   ti- tude
                      Em/   D/  G/
Cause you knew just  what  to  do
              C                      Em
We all did our best now,  we all need to rest now
        A⁷                         D/
Leave me alone,          there's no need to phone
```

Outro
```
G  C            G        C              G
..... We all did our best now ... We all need to rest now
C           G
..... Leave me alone
C              G       C              G
..... We all did our best now ... We all need to rest now
C            A⁷     D          A⁷
..... Leave me alone ... Leave me alone
D G
