### Intro
```
      D                       A
My friends and I have been thinking
        Bm              G
Another year's come and gone
      D             A
And so we started drinking
      G                   A
And singing New Year's songs
      D                 A
Like Auld Lang Syne and Comes a Time
      G               A
And Prince's "Ninteen Ninety-Nine"
      D                   G
But none of those songs seemed to do it
A           D
For us at the time
```
