**Intro**
C C C C

/ **Verse 1** \

               F   C
I forgot what it felt like to feel so alive
             F   G   Am
So I'm packing my suitcase   and changing my   mind
          F   G   Am
I forgot what it's like to look the things you want right
  G   F
between the eyes

                     G
It's never been so hard to say goodbye
         F   C
I'm back to the basics and waiting for signs
        F   G   Am
I'm praying for patience   and falling behind
  F   G   Am   G   F
It's not the way I meant to be, it's just how I'm designed
  F   G   C
I get so tired of running out of time

Chorus
C   E⁷   F   C
I'm missing out on all the places I could go
   F   C   F   G
The people I could know, the nights so not alone
Am   C   E⁷   Am
   We'll never make it and it wasn't meant to be
G   F   G   C
But I'll wait if you'll wait for me

/ **Verse 2** \

            F   C
I'm trying to remember your face in my   hands
        F   G   Am
I wanted adventure,   you met my demands
  F   G   Am   G   F
I told myself the day I left, "I want it but I can't"

F   G
I fell for something far away again
          F   C
I guess that it's pointless, but I mean what I   say
         F   G   Am   G   F
I never expected through all this time that I   could be okay
       F   G   Am   G   F
Yeah, all the things you do to me, the promise and the pain
            G   C
I wish with all my heart that I could   stay

Chorus
C   E⁷   F   C
I'm missing out on all the places I could go
   F   C   F   G
The people I could know, the nights so not alone
Am   C   E⁷   Am
